

# Home Improvement for Southern West Virginia

## **Marty Gearheart for Congress**

The Democratic Party is supporting the following initiatives: advance Cap and Trade, Bailouts, Socialized Medicine, more gun control, increased taxes, less National Defense, the Fairness Doctrine, not to mention the social issues such as taxpayer funded abortions for overseas and here, the advancement of gay rights, same sex marriages and on and on!

We need to be **working together now** to stop the Change that is coming to America if we want to have our Nation as we know it. We need to start the work here locally and now.

Marty stands for the things that matter to West Virginians!

- Lower Taxes
- Greater Personal Responsibility
- Control Government Spending
- Strong National Defense
- Pursue Terrorists
- Energy Independence

Nick Rahall has been in long enough. He considers his seat in Congress as a right. Why else would he ignore the Democratic Voters of his state by endorsing Barrack Obama over Hillary Clinton? Why else would he consistently back the likes of liberals as Nancy Pelosi and John Murtha? When you look at the voting record of Nick Rahall you will see he continually disregards the values of the people who put him in Congress to represent them. Are Southern West Virginians not expected to hold him accountable for his actions?! Vote your conscience! Vote for a real change!

**VOTE Marty Gearheart for Congress.**

**Now that's change we can believe in!**
